PROFESSIONAL SUMMARY

Software engineer with frontend and full-stack experience in Vue and Python, plus recent applied-AI work. I build production web apps, platform integrations, and AI tooling, and I ship side projects end to end.

EXPERIENCE

Senior Data Operations Engineer | Cencora (Intrinsiq) | Orlando, FL *(July 2025 – Present)*

- Build Python tooling that monitors and manages high-volume data pipelines on Azure Databricks and SQL Server.
- Own CI/CD for production deployments through Azure DevOps, adding pre-deploy checks that cut rollout incidents.
- Designed the diagnostics and alerting layer for data workflows serving practices, providers, and data sources across the network.

Technologies: Python, SQL Server, Azure Databricks, Azure DevOps, Docker, CI/CD

Software Engineer | Mouseflow | Remote

- Led the analytics dashboard's migration from jQuery to Vue 3 and Blazor, retiring legacy code and speeding up customer-facing views.
- Owned the integrations platform end to end (Shopify, WordPress, Optimizely, Salesforce, and the customer JavaScript SDK), taking each connector through discovery, build, QA, and release.
- Build and run production agentic-AI workflows with Claude Code, Cursor, and MCP servers used for development and integration work.

Technologies: Vue 3, Blazor, JavaScript, Chart.js, Web SDK, Claude Code, MCP

Full-Stack Developer (Contract) | Aizhak Coffee | Remote *(Sept 2023 – Jan 2024)*

- Built a real-time ecommerce storefront in Vue 3 and TypeScript on Firebase, shipping the MVP ordering flow in under six weeks.

Junior Frontend Developer | Baptist Health South Florida | Miami, FL *(June 2022 – Aug 2023)*

- Built responsive patient-portal interfaces in React and TypeScript under WCAG accessibility requirements, integrated with Java Spring Boot APIs.

PROJECTS

- **Formship:** SaaS with a multi-agent AI orchestration system behind its quizzes and content. Vue, Python.
- **HasteCV:** AI resume builder with a structured document model and its own MCP server. Django, DRF, Vue.
- **Aizhak Coffee:** real-time ecommerce platform. Vue, Node, Firebase.

EDUCATION

- B.A.S. in Computing Technology & Software Development | Valencia College | 2023–2025
- A.S. in Computer Programming and Analysis | Valencia College | 2020–2023

SKILLS

TypeScript, JavaScript, Python, SQL · Vue 3, React, Blazor, Tailwind · Node.js, Django, Flask · SQL Server, Azure Databricks, Firebase · Docker, Azure DevOps, Git · Claude Code, MCP, multi-agent orchestration, prompt engineering
